# ESPN ADVERTISING STANDARDS & GUIDELINES

## GENERAL GUIDELINES AND SUBSTANTIATION

### Overview

All material distributed over any of ESPN's programming networks, digital and mobile platforms, social media applications, or other media will be reviewed and must conform to all applicable governmental laws and regulations as well as the standards and policies of ESPN and its partners.

All commercial material(s) (e.g., television advertisements, billboards, feature materials) must be submitted in advance for approval and will be subject to ESPN's Advertising Standards and Guidelines and can be sent to [CommercialClearance@espn.com](mailto:CommercialClearance@espn.com). A minimum of two weeks lead time is required. Script, storyboard and/or viewing media is required for review. On occasion, one or more elements may be required for approval (e.g. script and viewing media). Submission of a commercial shall constitute the agency/client warranty to ESPN that all elements have been cleared for air (and Internet distribution, if via digital or broadband properties) with respect to intellectual property rights: this includes, but is not limited to, rights of privacy and publicity and master, mechanical, performance and synchronization rights for music.

All material submitted for approval over any of ESPN's programming networks or other media platforms is kept strictly confidential within the commercial clearance unit and/or Legal Department. Proprietary information subject to ESPN review shall not be disclosed with any parties outside these units.

The basic principles of advertising acceptance are: advertising should be honest and in good taste, claims should be substantiated and qualifying information about the attributes or use of a product should be disclosed whenever qualifying information is required to avoid misleading consumers.

### General Standards

ESPN reserves the right to:

1. accept or reject at any time advertising for any product or service submitted for distribution over any of its programming facilities;
2. require elimination or revision of any material in advertising copy which violates ESPN's standards, policies or guidelines; federal, state or local laws or regulations; is otherwise contrary to the public interest; or is in violation of the Standard Digital Terms and Conditions;
3. reject any advertising in which the advertised product, program, or service could negatively affect its audience; and
4. reject any advertising that appears in ESPN's sole judgment to improperly associate the submitting advertiser with an ESPN or ESPN-advertiser sponsored or owned property (e.g. X Games, CFP, ESPY Awards, etc).
5. reject any digital ads which ESPN feels may violate the DAA's Online Behavioral Advertising Guidelines for Self-Regulation, or any digital ads which ESPN believes may be collecting Personally Identifiable Information.
6. reject any advertising that contains, or triggers on a viewer's electronic device, any interactive feature, data, or functionality without ESPN's express prior approval.
7. Under no circumstances may advertising material include the emergency alert system ("EAS") or Wireless Emergency Alert ("WEA") tones or anything that sounds similar to the EAS or WEA tones, including in news footage or in any other format.

No commercial material (including Institutional Messages, as defined below) may (i) contain any data embedded in any portion of the audio or video signal or any other data stream or (ii) contain or trigger on a viewer's electronic device, any interactive features, data, or functionality, in each case, without ESPN's prior written approval.

In order to determine the acceptability of advertising material, ESPN has the right to investigate the advertiser and the accuracy of all statements and claims made in advertising copy, including requiring the advertiser to provide substantiation or documentation providing a reasonable basis for the claims, as determined by ESPN.

ESPN reserves the right at any time to revoke its acceptance of and to require the elimination or revision of any advertising material that is inconsistent with ESPN standards and policies. ESPN also reserves the right to require revision of any advertising material to meet emergency circumstances or situations of unusual significance.

- **Print:** Not permitted opposite magazine pages or in magazine digital platforms adjacent to any content that ESPN believes is targeted primarily at persons under the age of 17.

Malt beverage, beer and wine advertising in NCAA Championship programming is limited to products that do not exceed 6% alcohol by volume.

## **CHALLENGES**

### **Standard**

A competitive advertiser may challenge any commercial aired on the ESPN programming services. However, to encourage resolution of any dispute between an advertiser and a potential challenger by the parties themselves, the challenger must first contact the advertiser and make a good-faith attempt to reach a mutually acceptable resolution of the concerns raised.

Consideration of a challenge will be initiated upon presentation of satisfactory evidence that the challenger has made an unsuccessful good-faith effort to resolve the disputes unless the challenged claims are the subject of litigation or government action. In such cases, ESPN will generally defer consideration of the challenge and permit the disputed claims to air pending resolution by the responsible court or government authority.

### **Guidelines**

1. A challenge must be made in writing in a form that permits it, along with any supporting data, to be transmitted to the challenged advertiser for a response. In the event that the challenger believes certain material is a trade secret, or contains commercial or financial information that is privileged or confidential, the challenger should make such specific designation and set forth the basis for the designation. If, in the opinion of ESPN, such material does not properly fall within this designation, ESPN will ask the challenger to provide the material to the advertiser. If the challenger refuses to do so, ESPN will not consider this material in its review of the challenge, and will promptly return such material to the challenger.
2. All facially reasonable challenges received by ESPN will be reviewed. If the challenge appears to have merit, it will be transmitted to the challenged advertiser for a response. The response will normally be due within 14 days from the date the challenge is transmitted by ESPN. ESPN may establish a different deadline depending upon the circumstances.
3. In order to resolve the issues raised by a challenge, it may be necessary to require the challenger and/or the advertiser to respond in writing or in person to the arguments and data presented. If ESPN personnel do not have the technical expertise necessary to make a judgment, the advertiser and the challenger may be encouraged to obtain a resolution from an acceptable third party.
4. In the event litigation or government action is commenced during the course of a challenge raising the same or substantially similar issues, ESPN will generally defer consideration of the challenge and permit the disputed claims to air pending resolution by the responsible court or government agency.
5. ESPN will normally permit a challenged commercial to continue to run unless: (a) it has been enjoined by a court; (b) it is voluntarily withdrawn by the challenged advertiser; (c) the challenged advertiser refuses to cooperate with the challenge procedures described above; (d) a determination is rendered against the challenged advertiser by ESPN or by a third party to whom the challenge has been referred for resolution; or (e) the issues raised by a challenge are resolved, with finality, against the advertiser by a government agency or an appropriate court.

All advertising material will be reviewed on a case-by-case basis.

# ESPN ADVERTISING STANDARDS & GUIDELINES

## DISCLAIMERS/SUPERS

### Standard

When superimposed copy (e.g., disclaimers or supers) is required, it must be displayed clearly and conspicuously. As a general rule, supers must be presented against a contrasting background, and must be displayed for sufficient duration and in well-spaced letters, words, and lines of copy large and bold enough to be read easily by the viewer.

### Guidelines

All supers must be clearly legible, any clear typeface is acceptable.

Each line of every required super must occupy at least 22 scan lines (or the equivalent of 5% of the active picture) of the television screen for SD formatted commercials; a minimum of 29 scan lines for HD formatted commercials.

Minimum on-display time should be three seconds for all one-line supers. Supers of two or more lines should remain in view as follows: three seconds for the first line of text plus one second for each additional line (thus a four-line super requires a minimum six-second display).

Supers which vertically "roll" over the screen may be permissible with prior ESPN approval; those which horizontally "crawl" across the bottom one-third of the screen may be permitted only in rare circumstances on a case-by-case basis.

ESPN reserves the right to modify these requirements as circumstances may warrant.

  - Hard liquor products are those made by a process of distillation, or which have a distilled alcohol component. Examples include Jack Daniels whiskey and Bailey's Irish Cream.

- Billboards are acceptable.

- Incidental coverage is also permitted for distilled spirits. Incidental coverage is any existing on-site sponsorship opportunity that exists for other sponsors. These opportunities include, but are not limited to, in-car cameras and on-site billboards within arenas.

## DRUGS, HABIT FORMING

### Standard

ESPN does not accept advertising for any drug that is or may be habit forming.

Prescription drug advertising is also subject to separate standards and guidelines (see Drugs, Prescription).

## DRUGS, PRESCRIPTION / NON-FDA

### Standard

Prescription drug advertisements must comply with FDA Guidelines. Under the FDA's guidelines, a television commercial for a prescription drug must contain two elements: these are referred to as the "Major Statement" and the "Adequate Provision." The Major Statement includes all of the product's most important risk information in a "consumer friendly" manner. (The FDA believes this information can, in most cases, be communicated in :60 seconds or less.)

"Adequate Provision" refers to disclosure of the more detailed information contained on the medicine's labeling. The FDA will now accept dissemination of this information outside the commercial if the following guidelines are followed:

- The commercial includes an operating toll-free number which consumers can call for approved package labeling. Upon calling, consumers must be given the choice of having the labeling mailed to them or read to them over the phone;
- The advertiser must provide an alternative means of obtaining this information: for example, stating in the commercial that additional product information is available in concurrently running print advertisements, or making brochures available in publicly accessible sites like doctor's offices, pharmacies, grocery stores and public libraries (this is to reach people who do not have access to the Internet, or who are otherwise unlikely to call a 1-800 number);
- The commercial must contain an Internet web page (URL) reference that provides access to package labeling and a statement that pharmacists and/or physicians may provide additional product information to consumers.

### Non-FDA

All Non-FDA approved drugs must be submitted to TV Ad Operations in advance for review. All weight loss advertising must conform to FTC guidelines and documentation supporting any and all claims must be provided to TV Ad Operations upon request. ESPN shall have sole discretion in determining what constitutes acceptable substantiation.

## ENERGY & NUTRITION

### Standard

Advertising may not overstate the nutritional value of food or beverages. Use of words such as "nutritious" or "healthy" must be substantiated and may not be used to exaggerate or distort the value of the food. Health and energy claims for foods and food ingredients will be considered on a case-by-case basis. Such claims must be fully substantiated and put in the context of a total diet.

Advertising for energy drinks or supplements must not misrepresent the relationship between food and energy. Energy claims must be adequately substantiated and accurately depicted.

Advertising for dietary supplements must generally carry the following (or similar) super: "These statements have not been evaluated by the FDA. This product is not intended to treat, cure or prevent any disease."

### Current Restrictions:

Clearly visible visual disclosure of rating is required (minimum 25x25 pixels for digital display ads).

We recognize that in some cases ESPN will have to exercise judgment in situations as to which the application of the policy may be ambiguous, or as to which it does not fully cover or even contemplate. In these cases, we will look to the intended effect of these policies and act in accordance with its spirit. ## PUBLIC SERVICE ANNOUNCEMENTS

### **ESPN's Public Service Announcement Policy**

# ESPN ADVERTISING STANDARDS & GUIDELINES

Since the early 1980's, ESPN has limited the distribution of PSA's on its media platforms to those announcements that have been carefully reviewed and approved on a case-by-case basis.

**All charitable requests, promotions, initiatives, etc (including PSA's, graphics and drop-ins) must be discussed with and approved by ESPN Corporate Citizenship in advance of any agreement. Charitable initiatives will be coordinated on a case-by-case, limited basis.**

These policies and practices are in place for the following reasons:

- To avoid continual solicitation of fans;
- To work strategically in the best interests of ESPN's charities of interest (e.g. The V Foundation for Cancer Research, which provides grants for many types of cancer);
- To apply fair treatment to all leagues, conferences, teams and other sports organizations; and
- To ensure that charities are cleared for state-by-state and national solicitation, and that government filings are intact.

Commentators are permitted to note editorially certain actions or activities taking place on site if obvious and an explanation needed for viewers. This is subject to approval by the producer. They may refer only generically to the charity (e.g. breast cancer, prostate cancer) not to the specific non-profit organization.

ESPN Corporate Citizenship is open to joint charitable promotions in the interest of both parties on a limited basis and with significant lead time.

## **Standard**

- No direct solicitation of funds, absent special public interest considerations (e.g., emergency or disaster relief situations).
  - In place of direct solicitation of funds it is permissible to say "for more information" or to "learn more" or "log on to \_\_\_\_ for more information" ("help", "support", etc. constitutes a call-to-action and is not permitted.
  - Solicitation of volunteer efforts (e.g., "give your time") is permissible.
  - All emergency or disaster relief activities for the company are managed solely by Corporate Citizenship in conjunction with The Walt Disney Company.
- No 800 or other phone numbers soliciting donations.
- No political or issue-oriented advocacy messages.
  - Content that advocates non-issue oriented messages (e.g., get a colon cancer check-up) is permissible.
- No content from religious institutions, whether proselytizing or not.
- "Appreciation" material is permissible as approved on a case-by-case (e.g., we appreciate the Alabama National Guard's efforts).
- All cause-related material and government organizations must contain a "Paid for by...", "Sponsored by..." or "Supported by..." declaration.
- Social media components are permissible if they fit within these guidelines.
- Viewers should be directed to the advertiser or league site rather than the charity itself. Other URL and social engagement sites will be considered if they are sponsor led, and not the site of a specific charity, have no direct solicitation and meet the general guidelines (e.g., no advocacy, etc.).
- Cause marketing will be restricted during ESPN's V Foundation initiatives.

## **Non-Profit PSAs**

PSAs submitted for free airing by or on behalf of non-profit organizations (e.g., the Red Cross), governmental agencies or via the Ad Council must be reviewed and approved by ESPN Communications/Corporate Citizenship.

## **SPECULATIVE INVESTMENTS**

### **Standard**

1. **Foreign Currency Exchange Trading.** ESPN will not accept advertising for trading companies that utilize the "interbank market" for currency trading. (Interbank trading generally involves trading between large institutions such as banks and corporations, rather than trading via a recognized futures exchange such as the Chicago Mercantile Exchange.) Fraudulent currency trading firms often tell customers that their trading is done on the "interbank market." ESPN Advertising Sales, prior to even sending these ads to Legal for review, will determine if a currency trading advertiser is using interbank trading. In addition, ESPN will not accept advertisements for foreign currency trading that utilize numbers to promote their offerings (either actual or predicted), e.g., "\$10,000, properly positioned, in Deutschmarks last August would be worth \$20,000 today."

# ESPN ADVERTISING STANDARDS & GUIDELINES

- 2. Commodities.** Reputable commodities traders belong to the National Futures Association (NFA) and adhere to NFA Compliance Rule 2-29 which strictly governs how a trader may advertise to the public. ESPN Advertising Sales will require proof of membership to the NFA and/or compliance with the standards set forth in NFA Compliance Rule 2-29. Alternately, a commodities trading advertiser may submit a written explanation to Advertising Sales as to why membership is unavailable to it and/or why NFA Compliance Rule 2-29 is inapplicable. These explanations will be scrutinized carefully.
- 3. Credit Applications.** ESPN Advertising Sales will require a credit application for each advertising agency as well as each advertiser in this category. In addition, we will require a list of the principals in the trading firm seeking to advertise. ESPN Advertising Sales will also require a potential advertiser to sign a form acknowledging that ESPN may submit information requests regarding the firm and/or its principals to the NFA, the Commodities Futures Trading Commission and/or the offices of various attorneys general.
- 4. Commercial Review.** Advertisers that pass the above tests may submit advertising for Legal review. We will continue to apply strict scrutiny to these advertisements. For example, whenever advertising includes any prediction of potential investment results, risk factors must be disclosed. Copies of NFA Compliance Rule 2-29 will be available to the Legal Department for reference. In addition, due to the very risky and often misunderstood nature of these ventures, we will not accept advertising for leveraged investments (e.g., "give us \$3,000.00 and we'll invest \$10,000.00 on your behalf").

## SUBMISSION DATES / TIMING

### **Standard**

Submission of a commercial constitutes the agency/client warranty to ESPN that all elements have been cleared for air with respect to intellectual property rights: this includes, but is not limited to, rights of privacy and master, mechanical, performance and synchronization rights for music.

## THIRD PARTY RIGHTS

### **Standard**
