

WHAT IT IS

ESPN and the ACC bring you ACCN – a 24/7 national network that's the home of all things ACC. Watch live games, All Access, original content and analysis of the conference that wins all year long.

ACC Network Extra, represented as ACCNX, is the digital platform for additional live events.

ACCN is here to let fans nationwide know
- WE DO THIS.

HOW TO WATCH

ACCN and ACCNX can be streamed in the ESPN App. Access to both requires that your pay TV provider (cable, satellite, telco or streaming service) carries ACCN.

ACC controlled games cannot be watched via over-the-air broadcast providers. All ACC controlled games are on ACCN, ACCNX, ABC and the ESPN family of networks, with the exception of limited regional cable games.

HOW TO GET IT

Access to ACCN and ACCNX is determined by your pay TV provider (cable, satellite, telco or streaming service).

You are not able to subscribe to ACCN/ACCNX directly or via ESPN+. Your pay TV provider needs to have an agreement in place to carry ACCN; be sure to sign up for their specific package that includes ACCN.

Visit GetACCN.com to find a provider in your area.
